SUMMARY

Motivated and resourceful with a strong commitment to professional growth. Experienced in balancing coursework with part-time employment, demonstrating exceptional time management and organizational skills. Have a proactive mindset and actively look for opportunities to learn and contribute in the workplace. Adaptable and quick to learn, consistently achieving goals and exceeding expectations. Seeking a position that allows for continued growth and development while making a meaningful contribution to the organization.

WORK EXPERIENCE

Web Developer, Clearmind Algorithmics Inc. **October 2024 - Present**

- Contributed to multiple projects, handling both front-end and back-end development using React.js with Tailwind CSS for responsive web and mobile interface, and Codelgniter for API integrations to support the mobile development team.
- Created documentation and user manuals for completed projects, ensuring clarity and usability for end-users and team members.
- Gained hands-on experience with Git, Docker, and development servers, strengthening problem-solving skills and adaptability in a collaborative development environment.

DESO Technical Support Staff, Commission on Elections **May 2025**

- Provided technical assistance during elections, including troubleshooting voting machines and coordinating with EBs to ensure smooth voting operations.
- Documented incidents and maintained accurate records of machine performance and issues for reporting and future reference.

Software Developer Intern, Makopa Inc. Philippines **April - July 2024**

- Independently completed a full project from start to finish, ensuring all requirements assigned by the supervisor were delivered on time.
- Gained hands-on experience with HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, Laravel, and MySQL, applying these technologies to develop and maintain web applications.
